FRICITION TAPE

GREAT PERFORMANCE & EXCEPTIONAL VALUE

Black Cotton Cloth with a non-corrosive Rubber Resin Adhesive. The cloth backing makes this tape easily hand-tearable and extremely conformable.

Highly resistant to humidity and galvanic corrosion. Holds tightly on rough and irregular surfaces; and, its adhesive system will not dry out.

Used for insulation and to protect industrial harnesses and electrical wires from physical damage caused by friction. Also works well for over-wrapping low voltage splices and general electrical maintenance jobs.

Suitable for 1000 V and 176 F. Meets ASTM 4514-85. Individually cello-wrapped.

SIZE	THICKNESS	ROLLS / CTN	CTN DIMENSIONS (L x W x H)	SHIPPING WEIGHT	CTNS / PALLET
