CORD STRAP --- PULL TAPE

HIGHEST QUALITY FLAT WOVEN CONSTRUCTION

Our Cord Strap (aka Pull Tape) is pre-lubricated in order to reduce friction and eliminate duct cutting. Lower elongation reduces pulling time, enhances worker safety, and also prevents crushed capstans.

Lightweight, and easily blown through conduit or inner duct. Great for pulling fiber optic and lightweight cable.

Accurate sequential foot markings enable effective monitoring of cable location during a pull, eliminating the need for measuring tapes. It also helps to determine the quantity remaining on a partial roll.

Resistant to UV-rays, aging, mildew, and abrasion.
